

# Public Health Recommendations for Fully Vaccinated People

Rocky Mountain Tribal Leaders Council

## Who is Considered fully vaccinated?

- People are considered fully vaccinated for COVID-19 2 weeks after they have received the second dose in a 2-dose series (Pfizer-BioNTech, Moderna) or single-dose vaccine (or Johnson and Johnson (J&J)/Janssen).

## Where do these recommendations apply?

- The following recommendations apply to non-healthcare settings.

## What can fully vaccinated people do?

- Visit with other fully vaccinated people indoors without wearing masks or physical distancing
- Visit with unvaccinated people from a single household who are at low risk for severe COVID-19 disease indoors without wearing masks or physical distancing
- Refrain from quarantine and testing following a known exposure if asymptomatic

## What precautions should I take?

- Take precautions in public like wearing a well-fitted mask and physical distancing
- Wear masks, practice physical distancing, and adhere to other prevention measures when visiting with unvaccinated people who are at increased risk for severe COVID-19 disease or who have an unvaccinated household member who is at increased risk for severe COVID-19 disease
- Wear masks, maintain physical distance, and practice other prevention measures when visiting with unvaccinated people from multiple households
- Avoid medium- and large-sized in-person gatherings
- Follow CDC and health department travel requirements and recommendations
