Your life depends on it

Commercial tobacco use kills more than 480,000 Americans a year. It also causes pre-term births, cancer, heart disease, plus it affects the people around you. Over 16 million people are living with at least one serious smoking related illness, and tobacco use is the leading preventable cause of death and disease in the United States.

Make the choice to keep yourself and your family and friends healthy and safe.

By The Numbers

16 Million Americans suffer from smoking related disease

480,000 annually die from smoking

14% (34 million) adults smoke cigarettes in the US in 2019
